Our Gist

...a young Company with almost one decades of experience

...a solution provider, from development to delivery

...Covering to wide spectrum of Industry Areas

...globally accepted products & services

...Teams Cumulative innovation experience of 50+ years

...a part of India's infrastructural transformation

...a revered brand as regards quality reliability, response & delivery

Quality Management System Accreditation

Combustion Technology Group

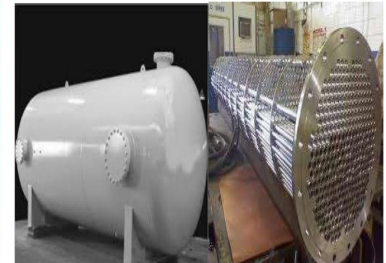

Clean Air Group

PVHE & Tank Group

At a Glance what we do in our business areas

Combustion Technology Group

- Elevated Flare System
- Ground Flare System
- Demountable flare system
- Sonic Flare system
- Mobile Flare system
- Revamp and Refurbishment of exiting Flares
- Spares for flares
- Crematorium
- Medical Waste Incinerators

Clean Air Group

- Electrostatic Precipitators
- Bagfilters, Cyclones, Scrubbers
- ESP and Bagfilter Spares such as discharge electrodes, ESP internals, Cages, Venturi, etc
- Bulk Material handling equipments such as RAV, DFDV, Conveyors, etc
- Dampers

PVHE & Tank Group

- Pressure Vessel
- Heat Exchanger
- Tanks
- Vessels
- Skids
- Piping

CLEAN AIR GROUP

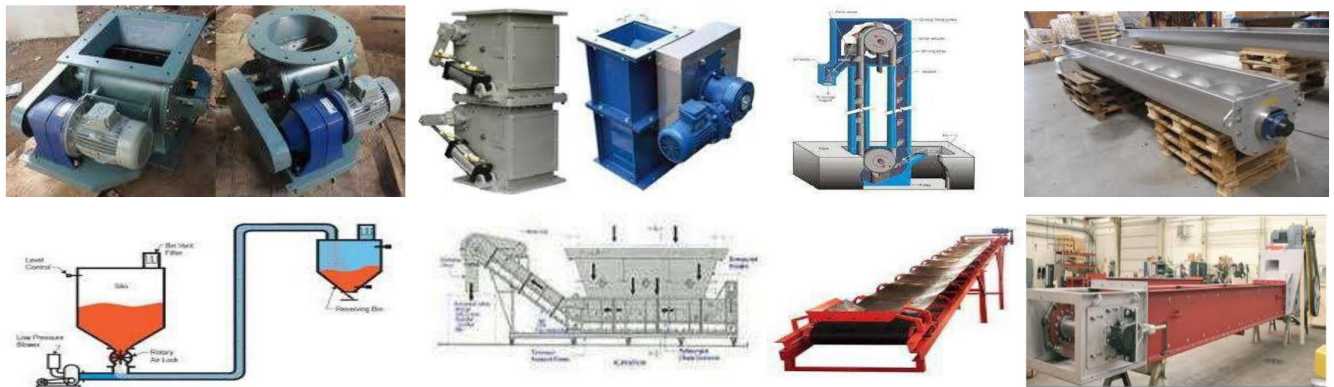

ESPs, Bagfilter, Cyclone, Scrubber with trunkey System including duct work, ID fan and Stack for various applications in steel, Cement, Power Industry etc

ESP and Bagfilter Spares (ESP Internals, Bagfilter Cages, its case to case basis fabrication

Material Handling systems such as RAV, DFDV, Screw , Belt and drag chain Conveyors, Bucket Elevators, Pug Mills, Submerged Ash and Drag Chain Conveyor etc

Dampers (Butterfly, Multilouver, Divertor (Manual/Auto Operated) and Boiler accessories such as Soot Blowers, Pn. Spreader, Bagasse Feeder etc

COMBUSTION TECHNOLOGY GROUP

Air/Steam assisted , Unassisted , Derrick /Self supported flare, Ground Flare, Mobile flare, Cold vent stack, Offshore flare, Pit Flare, etc

Industry and Application we serve ;

Oil and Gas Industry :
Methane , Ethane, Propene, Xylene and
all types of hydrocarbon flaring

Steel Industry :
CO and BF gas flaring

Chemical / Petrochemical/Fertilizer Industry
Ethelene, Propylene, Ammonia, Acid gas ,
Biogas flaring etc

Value Added Services from Combustion Technology Group

SPARE PARTS

Carrying ample inventory to supply wide array of flare components such as flare tips, ignition system, valves, cables, and others with guaranteed availability.

AMC/RECONDITIONING

Annual maintenance contract Repair/Reconditioning of exiting old flare systems includes Ignition system, Burners and Pilots, Flare Tip, Stack, Derrick, Piping etc

RENTAL

Offering a selection of stand-by, portable various flare sizes. Particularly useful during emergency/shutdown situations, temporary replacements, or one-time flaring needs.

DESIGN/ANALYSE/COMPUTER AIDED ENGINEERING

Using computer-aided engineering software; accurate and customized designs are produced along with various scenarios that can be generated to simulate the perfect flare system

Resources – Design & Engineering

- ❑ Well experienced and knowledgeable team of engineers of various disciplines to handle various projects independently to meet the committed timeline.
- ❑ All required designing software's for process, mechanical, piping and structural are extensively in used such as Ansys Mechanical, Fluent, CFX, PV-Elite, HTRI, Staad-pro, Caesar, Flare-sim, Creo, Auto-CAD Inventor for 3-D Drafting
- ❑ ERP Software package for company's total operations.
- ❑ We have dedicated design and development team for upgradation of existing and new products

Key Highlights

- ❑ GAPS Energy is multi-disciplined business unit over 18 years of rich experience (in business) and 50 years of cumulative experience in successfully executing various products for air pollution control systems, Crane parts, Pressure vessels, heat exchangers, tanks, vessels, skids, Flare systems, SPMs, etc including design, engineering, manufacturing and supply in Domestic and International Market.
- ❑ Provides all Engineering services includes Process, Mechanical, Electrical, Instrumentation and also robust Project Management Services
- ❑ State of art well equipped heavy fabrication shop in industrial hub at Pune
- ❑ Provides an end to end solution with product warrantee as well as process guarantee, ensuring one stop solution

Manufacturing Capacity

Manpower

- ❑ Team of well qualified and experienced professional engineers, trained technicians includes qualified Welders, Fitters and Grinders

Infrastructure

- ❑ Total covered area is around 20,000 Sq feet distributed into 3 separate shops for CS, SS & Exotic MOC. Capacity of handling 1200 TPA in total

Shop Facilities

- ❑ 5 Ton and 10 ton overhead Cranes, 12 ton hydra's, Rolling Machine, all types of Welding Machine with Column and Boom for GTAW, SMAW, SAW and FCAW welding processes
- ❑ Having all tie-ups with CNC Boring, CNC Machining facilities
- ❑ Proven track record in terms of quality and delivery
